

Reading These Charts:

Most data in this chart come from the National Center for Education Statistics, U.S. Department of Education, www.nces.ed.gov, and represents the 2005-06 school year. A few

figures came from the website maintained by the Independent Schools Admissions Association of Greater New York (ISAAGNY). Numbers appearing in italics were provided by schools themselves, or were taken from schools' websites.

Overall diversity: Some schools say they do not separate diversity data by race, but instead provide a percentage of overall diversity, which reflects the non-white student body. "N/A" indicates no data were available for a

specific race category.

If a school provided more than one student:teacher ratio figure for individual grade levels within the elementary level, we calculated an average student:teacher ratio for all elementary grades.
